

MARTA ARMADA

PORCELAIN
JEWELLERY DESIGN WORKSHOP

27, 28, 29 Mai 2023

Experimental Shapes Workshop

This workshop is focused on experimentation and analysis of the creative process during the elaboration of porcelain jewellery pieces.

We will analyze the different materials and working methods.

We will use the potter's wheel as an experimental tool.

We will work in depth on the concept of design as a fundamental part of the creation of a piece of jewellery, as well as its staging.

We will look for different compositional solutions providing sustainable and creative solutions.
